**Enterprise Ethereum Alliance**

**Special Interest and Technical Working Groups**

The Enterprise Ethereum Alliance (EEA) is a member-driven organization connecting Fortune 500 enterprises, startups, technologists, and industry experts to collectively drive adoption of next generation blockchain standards and technologies. The EEA's Special Interest and Technical Working Groups are key to its mission.

The EEA is reviewing the EEA Release 1 specifications. Each group is chaired by a member elected by their peers. Take a look at the current list of working groups here.

**September Hot Topics**

- **Sept. 13-14, 2018, Microsoft, New York City, NY**
  - The EEA member-driven Special Interest and Technical Working Groups drive all activity within the EEA. Each group is chaired by a member elected by their peers. Take a look at the current list of working groups here.

- **Sept. 11, 2018, University of Southern California, Los Angeles, CA**
  - EEA's Telecom Special Interest Group (SIG) is holding a one-day work session on telecom and financial industry business collaboration and market participation. Join EEA Executive Director Ron Resnick and other EEA members for a meet up during Austin Blockchain Week on Wednesday, Oct. 17 from 6:30 pm to 8:30 pm. Ron will share his insights on issues relating to permissioned blockchain networks.

- **Oct. 17, 2018**
  - Join other EEA Members in developing technical specifications that ensure that the blockchain can reduce costs, generate new efficiencies, as well as introduce new business opportunities at the carrier level.

**September Conferences and Workshops**

- **Sept. 17-19 - Gaithersburg, MD**
  - IEEE Global Blockchain Summit

- **Sept. 20-21 - Paris, France**
  - GI2

- **Sept. 11, 2018, University of Southern California, Los Angeles, CA**
  - Telecom SIG F2F Meeting

**EEA Member Highlights**

- **Callisto Network**
  - Callisto Network is a blockchain platform for the enterprise. It provides a way for companies to use blockchain technology without the need for expertise in software development.

- **Hanwha Systems Co., Ltd.**
  - Hanwha Systems is a global technology leader providing solutions for energy, environment, infrastructure, and general business. They are active in the EEA Telecom SIG.

- **Red Soldier Limited**
  - Red Soldier is a leading technology company that provides end-to-end blockchain platform solutions. They are active in the EEA Telecom SIG.

**September Update**

- The EEA has scheduled a one-day Telecom SIG F2F, Sept. 11 in LA. The event will bring together thought leaders, decision makers, and academics, as well as industry experts to develop technical specifications that ensure that the blockchain can reduce costs, generate new efficiencies, as well as introduce new business opportunities at the carrier level.

- Advanced registration is required, so please reserve your spot by Sept. 5.

**Recent updates**

- The EEA has welcomed 15 new members to the EEA! The Enterprise Ethereum Alliance connects Fortune 500 enterprises, startups, technologists, and industry experts to collectively drive adoption of next generation blockchain standards and technologies.

**Upcoming MIFF Panels**

**Sept. 21 - Paris, France**

**TrueRemove®**
