Learn about the Token Taxonomy Initiative and participate in the newly launched Token Taxonomy Initiative. The EEA is the industry's first global standards organization to develop open, blockchain-agnostic standards for digital assets. The EEA also had a booth to meet attendees.

In building and designing decentralized applications, components, and protocols, participants can expect governance, secure smart contract development, decentralized identity, and much more. The EEA offers educational webinars featuring EEA members and guest speakers on a range of topics. If you missed one or want to recall a session, education webinars are now available online!

The EEA hosts regular webinars featuring EEA members and guest speakers on a range of Enterprise Ethereum and blockchain topics. If you missed one or want to recall a session, education webinars are now available online!

Join the community and benefit from the expertise of other EEA members. Connect with us to learn more about our upcoming events. Enterprise Ethereum Alliance Apps: New Board Member and the EEA Mainnet Initiative's Technology and Ongoing Advances. Foundation's Aya Miyaguchi (shown right), newly appointed Board member, Ethereum
